

Amendment to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

Please cancel claims 11-12 and 15-20, and please add claims 21-23 as follows:

1. (Previously Presented) A protective liner for a vehicle storage area of predetermined shape and size comprising:

 a flexible and substantially impermeable floor having a perimeter and substantially forming a plane;

 a flexible and substantially impermeable sleeve surrounding and affixed to said perimeter of said floor;

 a flexible and substantially impermeable wall affixed to said sleeve wherein the wall is normal to the plane formed by the floor; and

 a flexible and coilable resilient frame captured within said sleeve.

2. (Previously Presented) The invention of claim 1, having a perimeter shape and size, wherein said perimeter shape and size are substantially the same as said shape and said size of said vehicle storage area.

3-6. (Canceled)

7. (Previously Presented) A protective liner for a vehicle storage area of predetermined shape and size comprising:

 a flexible and substantially impermeable floor having a perimeter;

a flexible and substantially impermeable sleeve surrounding and affixed to said perimeter of said floor;

a flexible, upright, and substantially impermeable wall affixed to said sleeve;

a flexible and coilable resilient frame captured within said sleeve; and

said liner further comprising a fastener means, whereby said liner is removably secured to said vehicle storage area.

8-9. (Canceled)

10. (Previously Presented) The invention of claim 1, further comprising:

the liner having a collapsed orientation and an uncollapsed orientation and a container for protecting and transporting the liner in the collapsed orientation.

11-12. (Canceled)

13. (Previously Presented) The invention of claim 7, having a perimeter shape and size, wherein said perimeter shape and size are substantially the same as said shape and said size of said vehicle storage area.

14. (Previously Presented) The invention of claim 7, further comprising:

the liner having a collapsed orientation and an uncollapsed orientation and a container for protecting and transporting the liner in the collapsed orientation.

15-20. (Canceled)

21. (New) A protective liner for a supporting surface of a vehicle storage area, comprising:

a substantially planar floor supported by the supporting surface and in substantially continuous contact therewith, wherein said substantially planar floor is flexible and substantially impermeable;

a sleeve extending substantially upright with respect to said substantially planar floor and said sleeve surrounding an affixed to said perimeter of said substantially planar floor, wherein said substantially planar floor is flexible and substantially impermeable;

a wall having a bottom edge affixed to said sleeve and a three top edge opposite said bottom edge, and said wall extending substantially normal to said substantially planar floor, wherein said wall is flexible and substantially impermeable; and

a flexible and coilable resilient frame captured within said sleeve for applying tension to said sleeve and said floor.

22. (New) The invention of claim 21, wherein said substantially planar floor defines an upwardly-facing surface that is exposed to the vehicle storage area.

23. (New) The invention of claim 21, wherein the liner has a collapsed orientation and an uncollapsed orientation.
